

AIR FORCE CIVIL ENGINEER SUPPORT AGENCY

01-05

JANUARY 2001

AIR FORCE QUALIFICATION TRAINING PACKAGE (AFQTP) — MANUAL AND POWERED PEST MANAGEMENT EQUIPMENT

SYNOPSIS:

We have recently completed a new qualification training package CD-ROM *AFQTP — Manual and Powered Pest Management Equipment*. This production was automatically distributed to all Air Force civil engineer organizations on 1 Dec 00. This computer-based product supports skill level upgrade and proficiency training of military engineer personnel in the 3E4X3 – Environmental Controls career field for home station training. This CD-ROM software program presents procedural guidance describing specific tasks identified in the Specialty Training Standard portion of the Environmental Controls Career Field Education and Training Plan.

CONTENTS:

This QTP addresses the safe operation and maintenance of manual and powered pest management equipment. The program consists of four lessons.

Lesson one provides a background of the subject with an overview of the selection, application, and safety guidelines for the equipment.

The safe operation of manual pest management equipment is explained in lesson two. The equipment covered in this lesson includes dusters, sprayers, granule spreaders, and trapping devices.

Lesson three explains the safe operation of powered pest management equipment. Included in this lesson are powered dusters, sprayers, and a rotary hammer.

Lesson four explains the basic maintenance and calibration procedures for all of the equipment.

The QTP utilizes narration, a video clip, and over 350 photographs and illustrations to make understanding the tasks of operating and maintaining the equipment easier.

Review questions are included in each of the four lessons.

ACCESSIBILITY:

Initial distribution has been made. Information regarding distribution procedures or ordering copies of this and other CD-ROM and/or video products may be requested through HQ AFCESA/CEOT. Point of contact is Mr. Ralph Gruber, DSN 523-6181 or commercial (850) 283-6181, or e-mail address Ralph.Gruber@tyndall.af.mil.

Questions regarding this QTP should be directed to the point of contact listed below.
